Subject: Evaluations

---

General Boles,

I couldn't help sharing some of the comments from our evaluations. Overall, you were one of the highlights of the conference! Thanks so much for coming to Michigan at the last minute, and providing us with such a well received program. You struck home for me on much of what our Director has instilled on me during my time working directly for him. THANKS!

"General Boles was outstanding! The best key speaker in years, which is saying a lot because they are always good."

"Vincent Boles was one of the best speakers that I've ever listened to."

" Vincent Boles was great!"

"Vincent Boles was a great speaker and gave awesome advice and insight!!

"I thought the presentation by General Boles was outstanding and kept me engaged."

"I thought Vinnie Bowles was EXCELLENT. "

"Boles was excellent - still talking about some of the things he discussed."

"The session with General Boles was very motivational The general was very informative on how to go thru life, as well as how to be a good leader. I would have him be a speaker for me any time."

"Over the years I have attended many presentations on Leadership, however this is the first that provides tangible strategies for developing into a good leader. Excellent presentation skills.

Col Vincent boles was an excellent speaker."

General Boles changed and shifted my perceptions and thoughts on leadership in many ways. This was key to many aspects the American Red Cross is facing nationally and really inspired, encouraged and motivated change in the Red Crossers attending. Great choice of a speaker.
