Team, Had this exchange with Patrick Palmer from American Century....Though Danette Campbell is the meeting planner she informed me that the person who put the event together and selected me was Patrick Palmer.

We talked a week before and he was very positive at the end of the call. Specifically he said "I took some heat for picking you, now I'm very excited to hear you"...gave me great introduction and provided this feedback today.

All the best for your weekend, look forward to more work with you over the rest of the year. You're a class team...Vinny

V. P. AMERICAN CENTURY INVESTMENTS.

Vinny,

Glad to hear that you are well. The feedback that we have received has been glowing. Your inspirational message about leadership touched everyone and you were the highlight of the meeting. Your message has made me a better person and I am now so much more appreciative of our men and women in the military. I am thrilled that you were able to present and I am certain our paths will cross again. Thank you for all that you do...Patrick
